

# TIMPERLEY DENTAL

## NEWSLETTER - APRIL 23

We hope you enjoy reading about what we have been up to over the last month and what we are planning in the near future.

### CASE OF THE MONTH

Can you believe this transformation was achieved in just 30 weeks carried out by our dentist Rob Trem.

Invisalign is a discreet alternative to traditional braces that uses clear, removable aligners to gradually straighten your teeth. The aligners are custom-made to fit your teeth and are changed every one-two weeks to gradually shift them into their desired position.

If you're interested in Invisalign, schedule a consultation with us today! We'll answer all your questions and help you determine if Invisalign is the right option for you.

Denplan is designed to spread the cost of routine appointments and treatments, to make looking after your dental health easy and affordable! Starting from £19.50 a month, plans include 2 exams and 2 hygiene visits a year, as well as 10% discount off treatment costs, depending on your oral health needs.

Let us know if you would like to join our denplan scheme!
